newsletter

IMPORTANT INFO:

What we are learning in third grade this week.

Math- Test on Tuesday and then students start our multiplication study.

Reading- This week students will learn how to visual when reading and how important it is.

Language- Students will learn how to combine two independent clauses together using conjunctions.

Writing- Students are learning how to use a graphic organizer to help their writing.

Social Studies- We are learning what important rivers run through Missouri and facts about the rivers.

Science- Students will begin researching about animal's physical and behavioral traits. Students will put together their own presentation and share with classmates what they have learned.
